

Utilities Setup Checklist

A simple guide to setting up essential services in your new home

Setting up utilities is one of the most important tasks when moving into a new home.

This checklist helps you organise the essential services you may need so your home is ready from the day you move in.

This list will help you check that the basics are in place.

Essential Utilities

- Electricity provider
- Gas provider (if applicable)
- Water connection
- Internet provider
- Wi-Fi router setup

Household Services

- Rubbish collection schedule
- Recycling collection schedule
- Mainbox access
- Change locks and/or security systems
- Parking permits (if required)

Address Updates

- Bank and financial accounts
- Employer details
- Driver's licence and other ID's
- Insurance providers
- Subscriptions and memberships

Helpful Extras

- Locate nearest pharmacy
- Locate nearest doctor or clinic
- Locate grocery store and essential shops

Want a more detailed checklist?

This checklist helps you organise utilities, but moving involves many other small tasks that are easy to forget.

The **8-Week Moving Checklist** guides you through every stage of the move – from planning and packing through to moving day and settling in.
